

HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: Some time ago I was going with a boy, and I think that he loved me. Like a little fool I turned him down for another boy. Would you please tell me how I can find out if he still loves me? If not, how can I forget him? When my girl friend and I are in town he always speaks to her and acts nicely to her. But he doesn't even look at me. Do you think he cares anything about me? When other boy friends ask me for a date, it only makes me feel bad.

ALWAYS YOUR FRIEND,

Next time you see him speak to him pleasantly. If he does not notice, go up to him and ask him very quietly if he is angry with you and say that if you have done anything wrong you are very, very sorry, and would like to be friends with him. If he doesn't act as if he wanted to be friends, better try to forget him. If he really wants to be friends with you again he will manage to show that he does.

Dear Mrs. Thompson: Will you kindly advise what will keep hair curly? My hair used to curl beautifully, but now it is straight. Would like something that won't turn hair gray.

CONSTANT READER.

You might try this hair curling lotion: 120 grains potassium carbonate, 1 fluid dram ammonia water, 12 fluid drams alcohol, rosewater enough to make 16 fluid ounces.

Moisten the hair with this, adjust hair loosely and it will curl upon drying.

Personally, I think that vigorous brushing of the hair will make it curl.

Dear Mrs. Thompson: Will you kindly tell me how and what and when to do after the loss of a mother in regard to acknowledging cards of sympathy, letters and telegrams of condolence. Also what about all floral pieces sent.

Shall place my order for bordered stationery at once, but am really at sea as to how to reply to the different messages of sympathy, etc.

If there is a brief form please send it to me and any information you can furnish me will greatly oblige.

READER.

As soon as possible after the funeral write a short note to each person who sent flowers, cards, telegrams or letters of condolence, thanking them for their helpful sympathy in your bereavement. There is no set form for such a note. You will be guided largely by the expressions sent to you.

Dear Mrs. Thompson: I am a young woman and can do dressmaking. I'd like to do sewing in private homes, but do not know what is required. Please give me some information.

(1) When a person whom I am going to sew for selects a dress out of a fashion book, do I have to purchase the pattern?

(2) Do I have to have my own pattern books?

(3) When working by the day, does my time go on when doing an errand, such as purchasing a pattern?

(4) Is it necessary to know how to do cutting without a pattern?

(5) Where could I take a course or learn cutting on ladies' garments?

(6) How many hours a day does a dressmaker work?

(7) The customer buys the pattern. (2) You should have pattern books of your own to show a customer. However, if she wishes to select from her own pattern books, she may.

(3) Yes. Your customer pays for your time in her service.

(4) It would be better.

(5) Inquire of the dressmaking departments in the big stores of any first-class dressmaker in town. In the larger city the Young Woman's Christian Association often has a dressmaking class.

(6) A dressmaker usually arrives at her customer's house at 8 a. m. and leaves at 5 p. m. Her customer furnishes the lunch.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—(Adv.)

HOUSEHOLD HINTS

THINGS WORTH KNOWING.

If a gloss is desired on linen add a teaspoonful of salt to the starch when making.

Soap that is allowed to dry and harden lasts twice as long as if used when fresh. Therefore it is cheaper to buy in quantities and keep it in a dry place.

White velvet can be freshened by applying chloroform to it after freeing the velvet of dust.

When shoe polish becomes dry from keeping it too long, moisten it with a little turpentine, as it softens the polish and is usable once more. It also gives a good gloss to the leather.

THE TABLE.

Chocolate Vienna Cake—Three-quarters cup of butter, seven-eighths cup of sugar, yolks of five eggs, four squares of baker's chocolate, one and one-half cups of flour, three teaspoonfuls of baking powder, whites of five eggs, apricot or orange marmalade. Mix the ingredients in the order given and bake in small tins. Remove from the tins, cool, take out a small portion of the cake from the center of each and fill the cavity with marmalade. Cover the tops of the cake with marmalade frosting or chocolate frosting.

Sweet Milk Griddle Cakes—Three cups of flour, one and one-half tablespoonfuls of baking powder, one teaspoonful of salt, one-quarter cup of sugar, two cups of milk, one egg, two tablespoonfuls of melted butter. Mix and sift the dry ingredients; beat the egg, add the milk and pour slowly on the first mixture. Beat thoroughly, and add the butter. Drop by the spoonful on a greased hot griddle; cook on one side. When puffed and full of

bubbles and cooked on the other side, turn and cook on the other side. Serve with butter and maple syrup.

Candied Pineapple—Peel, slice and weigh the pineapple, and allow a pound and a half of granulated sugar to each pound of fruit. Put the fruit and the sugar together in a granite kettle and add just enough water to cover the fruit. Boil until the fruit is tender, remove and spread on a dish to cool while you boil the syrup until it is very thick. Now lay in the pineapple; cook and stir for five minutes more, and then spread the sliced fruit on platters until dry and candied.

Coffee Ice Cream—One quart of cream, one and one-half cups of milk, one-third cup of Mocha coffee, one and one-quarter cups of sugar, one-quarter teaspoonful of salt, yolks of four eggs. Scald the milk with the coffee, add one cup of sugar, mix the egg yolks slightly beaten with one-fourth cup of sugar and salt; combine the mixtures, cook over hot water until thickened, add one cup of cream and let stand on the back of the range 25 minutes; cool, add the remaining cream and strain through a double cheesecloth; freeze.

Eggplant Stuffed With Tomatoes—Halve the eggplant and remove the inside. Make a forcemeat of the eggplant pulp, a cupful of chopped ripe tomatoes, one chopped green pepper and a cupful of bread crumbs. Season with a tablespoonful of melted butter and salt and pepper. Fill the hollow sides with this mixture, bind the two halves together with wide tape and bake, basting frequently with melted butter and hot water. When tender, transfer to a hot platter, cut and remove the tape and pour hot tomato sauce about the eggplant.

SUCCESS AS DOMESTIC TEACHER.

The friends of Miss Alma Philbrook of this city will be pleased to learn of her success as a domestic science teacher at the Rockville, Ind., schools as is shown by the following article taken from the Rockville Daily:

"Miss Alma Philbrook and the Junior girls of the Rockville high school delightfully entertained at supper last Wednesday evening at the high school building, supper being cooked and served by the girls. The table cloth and napkins were work of the girls and contained R. H. S. beautifully crocheted on the cloth and each napkin. The supper and the work done on the cloth and napkins showed the excellent and progressive work of Miss Philbrook as domestic science teacher. The guests included the mothers of the girls, besides Miss Irene Lowery, Homer J. Skeeters and Harry J. Reed. Messrs. Skeeters and Reed were recently entertained for dinner at the high school of a sister town and pronounced their domestic science equip-

ment one of the best in the county. Though their opinion is by no means changed they say that the equipment of Rockville high school is one of the best in the state. Feb. 26 during the worst snow storm that we have had the past 35 years, Miss Philbrook served a dinner to pupils for 5 cents for which was served hot biscuits, butter, bean soup and crackers and mashed potatoes which the pupils very much enjoyed on the stormy day."

Often at Wit's End

—trying to find a safe, nourishing food that will agree with the baby that has just been weaned.

This is an important epoch, and on securing proper food depends the future growth and health of the child.

Grape-Nuts prepared as follows has often solved the perplexing problem.

Place one or two teaspoonfuls of Grape-Nuts in a cup of hot water; stir for five minutes, at intervals; pour off the liquid portion and add a little sugar. Feed this "liquid Grape-Nuts" to the child.

Milk and cream, and more of the softened Grape-Nuts may be added later on.

This food is convenient, economical and safe. It is worthy a trial, especially where other "Infant Foods" do not make good.
